1. INTRODUCTION

The National Credit Regulator and National Consumer Tribunal have been mandated by the Department of Trade Industry and Competition (the dtic) to implement an Information and Communications Technology platform to enable the provisions of the National Credit Amendment Act (Act no 7 of 2019) which was signed into law in August 2019 by the president of South Africa.

The purpose of this act is to provide a protection mechanism and if necessary, extinguishment of debt for consumers who are classified as low-income earners. By implementing this strategy, the South African Government is creating an environment whereby this consumer income sector can have a “second chance” in terms of being an active economic citizen.

This request for proposal is for the acquisition of the identified Information and Communications Technology servers, memory, storage and network infrastructure to enable the NCR and NCT to have a platform on which to host the to-be developed applications software which will enable the business processes for the processing of consumer applications in line with this act.

2. Backgrounds

The National Credit Regulator (NCR) was established in terms of Section 12 (1) of the National Credit Act (Act 34 of 2005) and came into being on 1 June 2006.

The National Consumer Tribunal (“NCT”) was established in terms of the National Credit Act, No. 34 of 2005 (the Act) in September 2006. As an independent adjudicative entity, the NCT’s mandate is to hear and decide on cases involving consumers, service providers, credit providers, debt counsellors and credit bureaux. It is also responsible for reviewing decisions made by the National Credit Regulator and the National Consumer Commission.

In pursuing this mandate, the functions of the NCT are to –

- Adjudicate on any application or referral that may be made to it in terms of the National Credit Act and Consumer Protection Act.
- Make any order provided for in these Acts regarding such an application or referral of prohibited conduct and if finding that a contravention exists, by imposing a remedy provided for in these Acts.
